

# Follow Me Around

## Radiohead

I see you in the dark  
Falling down the fastlane  
Coming out to me Warm lights belong to me  
Crawling out to me  
Crawling out to me You follow me around  
You follow me around  
You follow me around  
You follow me around Even when you're coming down  
You are standing for the world  
And I can see you now  
And I'm being there, to come down You follow me around  
You follow me around  
You follow me around  
You follow me around..
