

# Love Backs Down

## Walking On Cars

I see things the same way you do, but I want you to know  
I took this for all that we do, but I wrote it dumb  
No I'm not gonna make it without you standing next to me Without you standing next to me, to me So are you  
gonna lead your love back down  
Are you gonna lead your love  
Oh come stand here next to me  
Come on closer it feels like home I see things the same way you do, but I want you back  
I took this for all that we do, but I made it packed  
No I'm not gonna make it without you standing next to me Without you standing next to me, to me So are you  
gonna lead your love back down  
Are you gonna lead your love  
Oh come stand here next to me  
Come on closer it feels like home So are you gonna lead your love back down  
Are you gonna lead your love  
Oh come stand here next to me So are you gonna lead your love down, love down  
Are you gonna lead your love down, love down  
Are you gonna lead your love down, love down  
Are you gonna lead your Are you gonna lead your love down, love down, ...  
Are you gonna lead your, ... Are you gonna lead your love back down  
Are you gonna lead your love  
Oh come stand here next to me  
Come on closer it feels like home Are you gonna lead your love back down  
Are you gonna lead your love Oh come stand here next to me  
Come next to me  
Next to me No I'm not gonna make it
