

# Pleasing Falsetto

## Moist

Heat is rising and the weight is on top of me  
We've been smoking and we got so high  
Can't imagine that there's anyone stopping me  
We got the devil in mind Already they're all over me  
Can't say that I don't want it And she cried  
Well what did you think I would do  
When you lied  
And what did you think it would prove  
All this time  
Now everything's all over you  
She got the devil in mind So we borrowed what we never would undertake  
Can't imagine what the gun was for  
For one second well I thought we might hesitate  
We got the devil in store Alright now they're all over me  
Can't say that I don't need it And she cried  
Well what did you think I would do  
When you lied  
And what did you think it would prove  
All this time  
Now everything's all over you  
She got the devil in mind And she cried  
Well what did you think I would do  
When you lied  
And what did you think it would prove  
All this time  
Now everything's all over you  
She got the devil in mind Heat is rising and the weight is on top of me  
We've been smoking and we got so high  
Can't imagine that there's anyone stopping me  
We got the devil in mind
