

Sleep By Rivers

[Kyle Lionhart](#)

I'm giving you a lot of my affections, can't you see my sacrifice?
Directions in the way that I'm growing, seems to keep me by your side.
It's hurting now, it's brought me to my knees.
I wish I caught your lies before your teeth. Be clear, Be clear about that love,
Tell me what I gotta do I've had enough.
I'm sure, I'm sure we'll be here a long.
I'll stay, I'll stay to keep you warm,
Sleep by rivers like the ones you got at home, and
I'm sure, I'm sure we'll be here a long. I walked into this room without knowing
this is where you love is tied.
Shadows crawling from each corner,
I think I'm gonna stay outside.
It's painful to see you when you're weak,
and I'm the one that held you here for years.
Be clear, Be clear about that love,
Tell me what I gotta do I've had enough.
I'm sure, I'm sure we'll be here a long.
I'll stay, I'll stay to keep you warm,
Sleep by rivers like the ones you got at home, and
I'm sure, I'm sure we'll be here a long. We scream, we fight, begin to lose our sights.
Know that, flower, you'll make this right.
We scream, we fight, begin to lose our sights.
Know that, flower, you'll make this right. Be clear, Be clear about that love,
Tell me what I gotta do I've had enough.
I'm sure, I'm sure we'll be here a long.
I'll stay, I'll stay to keep you warm,
Sleep by rivers like the ones you got at home, and
I'm sure, I'm sure we'll be here a long.
Be clear, Be clear about that love,
Tell me what I gotta do I've had enough.
I'm sure, I'm sure we'll be here a long.
I'll stay, I'll stay to keep you warm,
Sleep by rivers like the ones you got at home, and
I'm sure, I'm sure we'll be here a long.
