If Not Now, When?

Electrelane

I have waited, dined on ashes
Swung from chandeliers
And climbed Everest
And none of it's gotten me
Close to this
I've waited all my life
If not now, when will I?
We've been good even a blast
But don't you feel like somethings missing here?
Don't you dear?

I've waited all my life.
If not now, when will I
Stand up and face the bright light?
Don't hide your eyes...
Its time
No umbrellas no sunglasses
hell and hallelujah everyday
I've waited all my life
If not now, when will I
Stand up and face the bright light?
Don't hide your eyes
It's time
