

Better Than Love

Griffin House

Honey, when you doubt my love for you
looking in my eyes what I'm going through,
even if we change and fall out of,
hold my hand and its better than love

you saved me from myself,
you got my back when I need help,
there is no one else in the world,
you will always be my girl

you will always be,
you will always be,
you will always be.. my girl

sometimes dreams they don't come true
I was scared of that when I met you,
I stayed patient and I stayed kind,
telling you to take your time

turn my life around,
you made it okey to let you down,
there is no one else in the world,
you will always be my girl

you will always be,
you will always be,
you will always be.. my girl

so when I am walking down the road and feeling down,
can't understand the things you do,
nothing turns out the way we planed,
your still my baby and I am still your man

you saved me from myself,
you got my back when I need help,
there is no one else in the world,
you will always be my girl

you will always be,
you will always be,

you will always be.. my girl
