Vampires

Strung Out

Some say in the darkest places, love can grow
Well this solitary romance, may never know
This coffin break I'm staging to the road that leads me back to you
Will be the miracle, I'd give up everything, all the be with you

I can't seem to shake the lonliest curse of all
Eternity with just a memory

I've seen your picture a million times, three sixes and a melody of
Singing vice and a varice in the chains you chose to be our dress for
A funeral for two, a carnival in blue

I can't seem to shake the lonliest curse of all
Eternity spent chasing what I shun
All is ghost in memory and poison in the sun

Na, na, na they bury us in sand
Na, na, na together hand-in-hand

I can't seem to shake the lonliest curse of all
Eternity spent chasing what I was
All is ghost in memory and poison in the sun
