

Reunion

Erasure

Oh my love you've been
So much on my mind
I've been waiting
For this day to arrive
It's been so long
I watched the hours go by
It really doesn't matter
Got you here by my side
I was blind now baby
I see the light
Love is kind yeah
'cause you've made it alright
Stay with me
So close forever in time
See what you're really feeling
Say you'll always be mine Reunion
Together this time
Reunion
Forever be mine Will not believe it
Never see you again
Everyone's saying
You're a fool in the end
Whispering words
They make me feel so ashamed
They tried so hard to stop me
Still I call out your name
I was dreaming
In a world of my own
Tears of sorrow
Let me cry all alone
What could I do
A thousand nights without you
No more empty heartache
Can't believe that it's true Reunion
Together this time
Reunion
Forever be mine Feel so fine yeah
'cause you're back with me now
It's a true love story

Knew we'd make it somehow
Goodbye blues
We're gonna leave you behind
Now we're here together
You're just wasting your time
Sunshine calling
Must be love in the air
Ain't that something
We've got more than our share
Love returns
When love is true
No more sad or parting
Baby I got you Reunion
Together this time
Reunion
Forever be mine Reunion
Together this time
Reunion
Forever be mine
