Things are starting to blur  
I almost called you a name  
Things are starting to blur  
I almost made a mistakeThings are starting to blur  
I almost called you a name  
Things are starting to blur  
I almost made a mistakeThings are starting to blur, things are starting to blur  
Things are starting to blur, things are starting to blur  
Things are starting to blur, things are starting to blur  
Things are starting to blurBlur  
What?  
Blur  
What?Things are starting to blur  
I almost tripped myself up  
Things are starting to blur  
I got up by myselfThings are starting to blur  
I almost called you a name  
Things are starting to blur  
I almost made a mistakeThings are starting to blur, things are starting to blur  
Things are starting to blur, things are starting to blur  
Things are starting to blur, things are starting to blur  
Things are starting to blurThings are starting to  
Blur  
What?

Gotta keep it apart  
Gotta keep it smart  
Gotta keep it apartGotta keep it smart
