

Freaks And Geeks

Childish Gambino

[Verse 1] Alright, Gambino is a mastermind, fuck a bitch to pass the time

Mass Appeal, orange rind, smoke your green, I'm spendin' mine

The beat is witches brew, but beware this shit is potent

E. e. cummin' on her face, now that's poetry in motion

Yeah, Gambino make it work, I'm the boss move somethin'

Yeah, this cool fuckin' suits me, swag two button

Yeah, these girls be actin' crazy when they're dancin', Black Swan

I ain't fuckin' at the club, put your clothes back on

This beat is a disaster, 9/11 this track

Rappers wanna battle me, I have to mail their heads back

And my clique make that dinero, so it's time to meet the fuckers

I am runnin' this bitch, you are just a dog walker

Leavin' with your girl when we last seen each other

You fuckin' with the baddest like we tag team Rihanna

Fly girl on her knees, she don't wanna come near me

My dick is too big, there's a big bang theory

Got her picture in my iPhone, what do y'all think?

While y'all niggas masturbate, I'm in that Ariel Pink

If I am just a rapper man, you coulda fooled me

I'm the shit, when these dudes talk, they talkin' bull me

[Verse 2] Okay, I'm down with the black girls of every single culture

Filipino, Armenian girls on my sofa

Yeah I like the white girls, sometimes we get together

Need a thick chick though, so it's black and yellow, black and yellow

Love is a trip, but fuckin' is a sport

Are there Asian girls here? Minority Report

Put your team on the map, Blake Griffin on the court

Niggas bitin' off my tracks, need a knife and a fork

We the illest, need a nurse, here's the cheque, grab your purse

Unless we fuckin', then I'll pay for all the food on the Earth, man

I got some pussy that was insane, so insane, it's an enemy of Batman

I'm Dominant, niggas call me faggot cause they closeted

I'm hot as shit, comin' outta the backside of a rocket ship

It's Monster shit, you dude's are the opposite of Lochnesses

Respond to this, we can squash the beef right now like sausages

Chillin' with my n-words, say it like a white kid

Yes your booty's big as hers, say that to my white bitch

So she don't get embarrassed, my dick is made of carrots

Bunnies wantin' to be fed and I meant honeys, oh forget it
I have worked all winter, I will not fail summer
In the back of the bush, like Gavin Rossdale's drummer
Yeah, my stinger's in her flower, I hope she lets me pollenate
Workin' hard as shit, yeah this beat is made from concentrate
Nigga can't you tell that my sample of Adele
Was so hot, I got these hood niggas blowin' up my cell?
Swag out the ass, I'm the man, fuck chico
Took the G out your waffle, all you got left is your ego
Think about it for a second, man we eatin', where's your breakfast?
Man, you hungry have this sandwich, got my wallet, cheese and lettuce
An elephant never forgets, so my dick remembers everything
Green inside your wallet is that pussy open sesame
Runnin' the game, fuck am I sayin', runnin' the Earth, give me a month
Told all you niggas I'm in it to win it cause havin' an Emmy just wasn't enough
You get sloppy drunk, I stay whiskey neat
My clique should be cancelled, Freaks and Geeks
