

Bullet In The Gun

Jimi Jamison

The hands of time
They won't slow down
Every minute
Every second counts Break away and
Break new ground
And get everything
You dream about
There's a bullet in the gun
That bullet is just for you
Can you feel it
Your time is running out
You won't get a second chance
Everything is in your hands
That bullet in the gun
Is just for you Just for you Interstates
And gravel roads
One day you might
Hit the motherload Who knows what
The future holds
When your time is up
You got to go
There's a bullet in the gun
That bullet is just for you
Can you feel it
Your time is running out
You won't get a second chance
Everything is in your hands
That bullet in the gun
Is just for you Just for you
