Anthem

Godflesh

And I found my soul
When every feeling has been crushed by your world
And you know, I'll find
My purity inside is all that's mineYou make me feel what you feel
I will become you 'cause you know what's real
And I'll see what you see
You'll never be me 'cause I've found my soulAnd I found my soul
When every feeling has been crushed by your world
And you know, I'll find
My purity inside is all that's mine
