Elimination

Overkill

Elimination
Terminal, what disease
Told me too late
What's this cough and wheeze?
Fatal, you're shittin' me
A second opinion
Is what I needLaughin' in a windstorm
Blowin' all the cornstalks down
Cryin' in a funeral home
Forward my mail, six feet undergroundElimination
Elimination
Elimination
EliminationContagious, say why not
Not just me
Waitin' to rot
Painful
Yeah I know
When I had to goI'm yankin' on my plug
And I can't seem to get it loose
Pullin' all the stops
Your ideals change, when you got
Nothin' to looseElimination
Elimination
Elimination
EliminationEliminate the right
Eliminate the wrong
Eliminate the weak
Eliminate the strong
Eliminate your feelings
Eliminate too late
Eliminate the hope
EliminateIf I had just one more day
I'd turn it all around
I'd make a play of good, clean livin'
And dig me out of the ground
And if I had just one more day
I'd say it to your face
Pull the plug on everyone
Eliminate this raceWe want to cure

And we want it now
Reissue hope
We don't care how
You're makin' a mess
Diseasin' a nation
Runaway train to eliminationHopeless there's no doubt
Set on a slow burn
From the inside out
Carefully say what for
Last one out
Closes the coffin doorSpendin' all you saved
And wishin' for a little more
If I'm lookin' at the ceilin'
Then I must be layin' on the floorElimination
Elimination

There's gotta beLaughin' at the epidemic
Somethin' is goin' around
Cryin' at the epidemic
Pullin' on nails, six feet undergroundElimination
