

# Elimination

## Overkill

Elimination  
Terminal, what disease  
Told me too late  
What's this cough and wheeze?  
Fatal, you're shittin' me  
A second opinion  
Is what I need Laughin' in a windstorm  
Blowin' all the cornstalks down  
Cryin' in a funeral home  
Forward my mail, six feet underground Elimination  
Elimination  
Elimination  
Elimination Contagious, say why not  
Not just me  
Waitin' to rot  
Painful  
Yeah I know  
When I had to go I'm yankin' on my plug  
And I can't seem to get it loose  
Pullin' all the stops  
Your ideals change, when you got  
Nothin' to loose Elimination  
Elimination  
Elimination  
Elimination Eliminate the right  
Eliminate the wrong  
Eliminate the weak  
Eliminate the strong  
Eliminate your feelings  
Eliminate too late  
Eliminate the hope  
Eliminate If I had just one more day  
I'd turn it all around  
I'd make a play of good, clean livin'  
And dig me out of the ground  
And if I had just one more day  
I'd say it to your face  
Pull the plug on everyone  
Eliminate this race We want to cure

And we want it now  
Reissue hope  
We don't care how  
You're makin' a mess  
Diseasin' a nation  
Runaway train to elimination  
Hopeless there's no doubt  
Set on a slow burn  
From the inside out  
Carefully say what for  
Last one out  
Closes the coffin door  
Spendin' all you saved  
And wishin' for a little more  
If I'm lookin' at the ceilin'  
Then I must be layin' on the floor  
Elimination  
Elimination  
Elimination  
Terminal, what disease  
Told me too late  
What's this cough and wheeze?  
Fatal, you're shittin' me  
A second opinion  
There's gotta be  
Laughin' at the epidemic  
Somethin' is goin' around  
Cryin' at the epidemic  
Pullin' on nails, six feet underground  
Elimination  
Elimination  
Elimination  
Eliminate the right  
Eliminate the wrong  
Eliminate the weak  
Eliminate the strong  
Eliminate your feelings  
Eliminate too late  
Eliminate the hope  
Eliminate  
Elimination  
Elimination  
Elimination  
Eliminate the right  
Eliminate the wrong  
Eliminate the weak  
Eliminate the strong  
Eliminate your feelings  
Eliminate too late  
Eliminate the hope  
Eliminate, eliminate
