[Verse 1: Yakki Divioshi]

I'm so high, I'm so fly, I don't plan on landin'

When I ride, keep that tool just like I'm a cannon

On the (?), thousand packs like a bag of candy

They come white, they come yellow, they come green like lemons

Don't do molly, don't do molly, can't fuck with that Zan then

Fuck that air, pop that ho, and take a trip to Zanland

100 thousand, 200 thousand, let me do my band dance

Balmain dream, new Margiela, (?)

Double G, double G, we mix that up with the lean

When I'm on the bars I get to itchin' like a dog that came with fleas

Cause bitch I'm gettin' it

(?) I caught myself talkin' to a tree

And he talked back and he told me, better roll up a blunt and leave

[Hook: Lil Uzi Vert]
