

# Evil Angel

Rufus Wainwright

For to see my depth of sorrow  
You are not allowed to follow me  
Into this town square  
And then run away Evil angel with your cleft tongue  
When you kissed me  
On this town square  
All the lights came on  
At sunset thought you'd stay Evil angel bearing apples  
When you kissed me  
On this drawbridge as the boats do  
How was I to know you'd flee Tear down these monuments  
Bury the coat of arms  
And build for me a factory Evil angel when you're faced with  
Hatred's daggers in my honor  
You're no match no scratching hearts  
That no longer bleed Oh, evil angel tear down the monuments  
Evil angel bury the coat of arms  
And rebuild for me these memories  
For to see my depth of sorrow
