

# Dancing to a Thousand Symphonies

## Celestial Season

[lyrics: Stefan Ruiters]remembering the melodies  
in a room with glowing stars  
with a thousand symphonies, right  
I still recall a smile on the wallnot forgetting the beating on the drums  
under a blood raining sky  
with the roaring of thunder, okaydancing to a thousand symphonies  
my feet are off the ground  
dancing to a thousand symphonies  
I love transcending sounds  
my feet are off the ground  
I love these transcending sounds
