

# Home From The Usa/Yanks

Ron Hynes

here come the yanks  
here come the yanks  
there home from the usa  
oh stripes and stars  
and there great big cars  
and there driving around all day  
one hand on the wheel  
going on about steel  
and throwing there money around  
all summer along  
from dusk till dawn  
its enough to get you down

here come the yanks  
with cash in the bank  
all jarred up on your couch  
and they wont shut up  
and there never gonna stop  
eating everything in the house  
for ever going on  
how they built new york  
no lawyer liquors drink  
and they wont go to bed  
its the summer i dread  
putting up with the yanks

oh say can you see by the dawns early light  
we're always wrong and the yanks are always right

here come the yanks  
here come the yanks  
there home from the usa  
oh stripes and stars  
and there great big cars  
and there out there driving around all day  
one hand on the wheel  
going on about steel  
and throwing there money around  
all summer along

from dust to dawn  
its enough to get you down

oh say can you see by the dawns early light  
we're always wrong and the yanks are always right

here come the yanks  
with cash in the bank  
all jarred up on your couch  
and they wont shut up  
and there never gonna stop  
eating everything in the house  
for ever going on  
how they built new york  
no lawyer liquors drink  
and they wont go to bed  
its the summer i dread  
putting up with the yanks
