

Ring True

Poor Old Lu

'Ring True' is probably the most "intentionally" worshipful song that Lu has. Written just before recording 'Sin' (and finished up in the studio), it is probably most notable for its raw sounds, catchy groove, and the fact that Aaron sings lead vocal. 'Ring True' happened to be one of the most successful singles that Lu ever released and was always a fun song for live shows. Though 'Ring True' features Aaron on lead vocals, the lyrics were still written by Scott (who wrote all of the Poor Old Lu lyrics *except* 'Army Guy', which was written by Nick and Aaron). Shortly before laying down the vocal tracks, Aaron was facing some writer's block and asked Scott to write the lyrics, if possible. 45 minutes later, or so, 'Ring True' was ready to sing. Very few Poor Old Lu songs contain lyrics as blatant and joyful - a testament to the fact that they were "divinely inspired". With emphasis on "truth", "thankfulness" and "reliance upon Him", 'Ring True' continues to be a great song to close your eyes and

lift your hands to. what is this?

thru strange and bad

it does not touch this joy i have what is this?

thru future, past

and now or then only love will last oh, these words ring true to me love the Maker

crown the King

who gives us all and makes me sing count my blessings

on my knees

so thankful for all everything oh, these words ring true to me my strength is dead

i hope instead

in what will be

in what we'll see my strength is dead

i hope instead

on every word He's said this is real

and this is good

to trust in truth now as i should give the glory

give the pain

and let the fall build me again oh, these words ring true to me

oh, these words ring true to me my strength is dead

i hope instead

in what will be

in what we'll see my strength is dead

i hope instead

on every word He's said who gives us all

(who gives us all)

and makes me sing

so thankful for

(so thankful for)

all everything my strength is dead

i hope instead

in what will be
in what we'll see
my strength is dead
i hope instead
on every word He's said who gives us all
(who gives us all)
and makes me sing
so thankful for
(so thankful for)
all everything
