

Rotating Signs

Bobby Meader Music

I was a wreck when I saw you there
You used to ask why I'd never volunteer for youthful activities
The same way you beg to leave your city I think it's sad just like your life
And I don't like rotating signs You don't treat me the same when you're drinking
But when you sleep you're the worlds cutest fucking thing
In a dream
You don't tell me I'm wrong just like your life
And I don't even like rotating signs Several people they know how you sleep
But you write them off like they're all fucking creeps
