

Antimatter

David Boykin

I'm antimatter
I don't matter
Cancer phones
Break my bones
I'm illusion
Sonic solution
Magic mind
Sonic pollution
I just detox
I just see lots
I see nothing
Show me something
We go round, round
We make it safe and sound
I try to break it down
Alright
We go round, round
We make it safe and sound
I try to break it down
Alright
I have visions
Homo Sapiens
Fast I've grown
I think alone
I'm confusion
Evolution
I am a man cub
Institution
I move forward
I make awkward
I just jump, jump
I just thump, thump
We go round, round
We make it safe and sound
I try to break it down
Alright
We go round, round
We make it safe and sound
I try to break it down

Alright
I go round, round
In my sound, sound

[Incomprehensible][Incomprehensible]Round, round
In my sound, sound

[Incomprehensible][Incomprehensible]I evolve

Then dissolve

Maintain my lies

'Til April falls

My sea runs red

My trees are dead

My breath runs short

Please report

Is there someone out there?

Is there someone out there?

Do you receive me?

Do you receive me?

We go round, round

We make it safe and sound

I try to break it down

Alright

We go round, round

We make it safe and sound

I try to break it down

Alright

We go round, round

We make it safe and sound

I try to break it down

Alright

We go round, round

We make it safe and sound

I try to break it down

Alright

Alright

Alright

Alright

We go round, round

We try to

We go round, round

Make it alright
