

# Second Night

## Mansionair

Silver in the river, set to my mind  
Silver in the river, it flows blind  
Silver in the river, I see it in your eyes  
Silver eyesThe second night, silver eyes  
Don't sympathize, silver eyes  
So you're running back backwards  
Feel it in my chest  
So you're runnin' in the foreground  
Say it's for the best  
In the wake of the waves  
I can hear your breathe  
By the flicker of the light  
I watched the tied subside  
And I look into your silver eyes  
And something doesn't seem quite right  
And it's only the second night,  
It's only the second night,  
It's only the second night,  
OooohSo you're running back backwards  
Feel it in my chest  
So you're runnin' in the foreground  
Say it's for the best  
And I look into your silver eyes  
And something doesn't seem quite right  
And it's only the second night,  
It's only the second night,  
It's only the second night,  
It's only the second night
