Do You Believe

Elis

Each night I lie in my bed
And I think about it
Oh my dark friend
Can you give me an answerThe people that we love
We cannot understand
Every day the people that we love are hurt
The people who we love
And cannot understand
We cannot understandDo you believe we're the children of a God
Do you believe
Or do you believe we're left here all alone
Do you believeI have this question
What is it for
This poor life
We live down hereIs there a power all above
A person so called God
So called God
Who plans our life
Or is it our free will
The creator of our life
Are we responsibleThe people that we love
We cannot understand
Every day the people that we love are hurt
The people who we love
And cannot understand
We cannot understandDo you believe we're the children of a God
Do you believe
Or do you believe we're left here all alone
Do you believe
