

I Didn't Just Kiss Her

Jen Foster

I didn't just kiss her
We went all the way and I liked it
What's the point in trying to hide it?
You never know 'til you've tried it I didn't just kiss her
She put it on my tongue and I licked it
I think she wishes she could forget it
But she sure seemed to love every minute I don't know what the problem is
Why she gotta try so hard to keep it all a secret, yeah?
A secret, yeah... I didn't just kiss her
We went all the way and she liked it
She likes to think she didn't invite it
But these scratches aren't because she to fight it Oh, I didn't just kiss her
She whispered what she wanted to put in me
Swore that she'd respect me in the morning
But when the sun came up she left without a warning I don't know what the problem is
Why she gotta try so hard to keep it all a secret yeah?
A secret yeah.... She's saying she only kissed me for the boy's attention
She's trying to blame it on a little too much booze
But I can testify she knew what she was doing
It was almost like she's done it all before
Oh-oh-oh-oh
Oh-oh-oh-oh She's gonna go back to her boyfriend now
Before the questions come up
She's gonna tell 'em I'm stalking her round the clock
Like I'm making the story up Yeah...
Bitch... She's sayin she only kissed me for the boy's attention
She's tryin' to blame it on a little too much booze
But I can testify she knew what she was doin'
It was almost like she's done it all before I didn't just kiss her
No, I didn't just kiss her
I didn't just kiss her
And I sure do miss her
'Cause I didn't just kiss her
Oh-whoa
Oh-whoa
Oh-whoa-I
Oh-whoa-I
I-I-oh-whoa
