

Ooo Baby

N'Dambi

Hello baby, you were on my mind
See, I heard an old song that we use to play
Back when we were spending time (mmm)
(Wishing I could go back)
To when our love was fresh and new
(Wishing I could go back)
â€˜Cos I still feel the same for you
(Wishing I could go back)
Has time made your memories fade
Hey, do you feel the same
Have your feelings changed
Does your heart still keep my place

Ooo, baby
Back in your arms is where I wanna be
I must admit that I was wrong to leave
Ooh, baby
When you make me moan, make it nice and strong
I wanna remember in the morning

Got me reminiscing
Back to way back when
To the taste of you on my tongue
And the smell of you on my skin (smell of you on my skin)
(Wishing I could go back)
Letâ€™s put the soundtrack on replay
(Wishing I could go back)
And feel the love again that we made
(Wishing I could go back)
Repeat the chorus and refrain
Itâ€™s good to know youâ€™re okay
But suga, Iâ€™m not the same
And thatâ€™s whatâ€™s so hard to take

Whatâ€™s your life like now
Are you married with kids
Are you living in the same house
Whatever it is, I wanna know

Just who you are now

Wanna know baby I gotta know, I gotta know, I got to know (2xs)

Wishing I could go back
And be the girl I am today
Wishing I could go back
See memories I can't erase
Wishing I could go back
I wanna take back my place

It's good to know you're okay
But suga, I'm not the same
And that's what's hard to take
