

# Trynna Finda Way

Nelly Furtado

I left my heart in San Francisco  
With some club kids on a crowded street somewhere  
The sky was red and he said,  
"Would you like to come be a part of my North American Dream?"  
I could try to chase life down, down the street and I'd find the separation  
Of fact and fiction

I'm tryin' a find a way  
I'm tryin' a find a right  
And if I budge I just might  
I'm tryin' a find a way  
I'm tryin' a find a right  
And if I budge I just might

I left my conscience somewhere with my rhythm  
I heard about it from the mouth of a man  
He was hopping some trains and combing the land  
Looking for a lover (kiss) planted in the east  
Trying to run from the dreaded fist beast  
And it lies, it lies in the picket fence call  
It was my own paradise with my own private corridor

I'm tryin' a find a way  
I'm tryin' a find a right  
And if I budge I just might  
I'm tryin' a find a way  
I'm tryin' a find a right  
And if I budge I just might

So I'm dancing to a new beat and it came to me in bed  
My veins became a strain of light that I let to flow instead  
And a wish came to me like Peter Pan at my window and said  
Evolve your destiny child and you'll never walk alone-no  
You'll never walk alone, but  
Travel to the land of surrender till' you can't cry no more  
Till you can't, till you can't  
And you'll never walk alone

You'll nev, you'll nev, you'll never walk alone, you'll nev,  
You'll nev, you'll never walk alone

Never walk, never walk alone alone, alone  
All this inspiration is passing me by  
All I can do is chill when I really wanna fly  
And this pollution do nothing but dirty up my mind  
Faster than forever in the blink of an eye  
To see past my lethargy is hard I feign  
The beauty of my youth is  
Gone but the chemicals remain

I'm tryin' a find a way  
I'm tryin' a find a right  
And if I budge I just might  
I'm tryin' a find a way  
I'm tryin' a find a right  
And if I budge I just might

I travel to this land of surrender but I see it's all over me, over and over  
Again and I try and I try and I try an angel on my left side and a devil  
On my right and they fight and they fight and they fight they're fighting,  
They're fighting, they're fighting for my attention...hello?

You have my attention  
Do I have your attention  
Can I have your attention please?  
Please, you've made such, such an impression on me
