Save The Robots

Institute

Save robots
Save yourselves
Keep your head to the future boy
For everything it's worth
I didn't mean to collide with you
We fell so far from earth
No guru
No system
No mantra
Save robots
Save your friends
Try a little selfless
Try whatever works
No guru
No system
No mantra
No mantra
So don't you try me
You'll never find me
I was here before
You're never found me then
No guru
No system
No mantra
No mantra
No mantra
No mantra
Save the robots
Save the robots
Save yourselves
Save yourselves
Save yourselves
