

Once

Dead Soul Tribe

Once
I was strong
Now I see
I was wrong
What I need
All along
I've received
Now it's goneOnce
You were here
And I wanted you near
Now I've made
What I've feared
Now I've made
What I fearedYou keep me wanting youWhen I think of you
I wish that you were here
Every now and then
I dream about you my dear
I'd tell you my regret would never disappear
If I could see you once againOnce
I believed
Now I feel so deceived
That I should be believed
That our love is bereavedYou keep me wanting youWhen I think of you
I wish that you were here
Every now and then
I dream about you my dear
I'd tell you my regret would never disappear
If I could see you once again
