

# Finish Line (B-Side)

## Beartooth

Carry your hearts  
Carry your minds  
Bring us to the finish line  
Free your soul of what we despise  
Bring us to the finish line This has happened to much before  
The end of the hallway with an open door  
Come in  
Come in  
Be safe here  
Come in  
Come in  
And just escape From all the pain  
Delay all of your change You'll never be who you want to be  
You have too much insecurity This is it  
This is it  
This is it  
This is it  
This is your life now Don't be confused by who's speaking to you Therapeutic medicine  
Therapeutic life of sin We will never understand  
You can't destroy our head  
But that doesn't mean we have to be separated This is it  
This is it  
This is it  
This is it  
This is your freedom  
What have I been doing? (Freedom) We will never understand  
You can't destroy our head  
But that doesn't mean we have to be separated This is it  
This is it  
This is it  
This is it  
This is your freedom  
What have I been doing? (Freedom)
