Come Back, F.D.R.!

Michael Brown

(Intro Music)
Come Back, F.D.R.!
You great superstar!
Don't you know America needs you?

(Music)
Give us that smile again!
Show us that style again!
Do what it seems only you could do.

(Music)
You came along,
and clouds of gloom disappeared.
You brought the sunshine,
and we all stood up and cheered!
God bless you.
Come back, F.D.R.!
You great superstar, don't you know America needs you.

(Music)
There we were down in the dust,
and you came by a guy we could trust.
And we got up and started feeling scrappy.
There we were down on the ground,
and you came by and brought us around.
Just do it once again and we'll be happy.
But, make it snappy.

(Music)
Come back, F.D.R.!
You great superstar,
Don't you know America needs you.
Give us that smile again!
Show us that style again!
Do what it seems only you could do.
You came along,
and clouds of gloom disappeared.
You brought the sunshine,
and we all stood up and cheered!
God Bless you.

Come Back, F.D.R.!
You great superstar don't you know America needs you.
