

Very Merry Christmas

Dave Barnes

It's 2 AM and we're pulling in for the presents
Mama won't sleep, 'cause she knows we'll be any second
All the blinds are pulled, every bed is full
With the both of us, this house might bust, what a blessing
You and me and all this family We're gonna have a merry Christmas, babe
A very merry Christmas, baby
A merry Christmas, babe
Very merry Christmas, baby The old neighborhood always looked so good each December
We say hello to the friends we can and can't remember
Then the hand bells ring and then the children sing
Then we talk so late that the fireplace is on the embers
You and me and all this family We're gonna have a merry Christmas, babe
A very merry Christmas, baby
A merry Christmas, babe
Very merry Christmas, baby A merry Christmas, babe
A very merry Christmas, baby
A merry Christmas, babe
Very merry Christmas, baby If Santa forgets us
The world will be fine
Let's put out those pictures
And conversate by firelight A merry Christmas, babe
Very merry Christmas, baby
A merry Christmas, babe
Very merry Christmas, baby A merry Christmas, babe
Very merry Christmas, baby
A merry Christmas, babe
Very merry Christmas, baby A merry Christmas, babe
Very merry Christmas, baby
A merry Christmas, babe
Very merry Christmas, baby A merry Christmas, babe
Very merry Christmas, baby
A merry Christmas, babe
Very merry Christmas, baby Merry Christmas, baby
Merry Christmas, baby
