

Love You To Death

Pixie Lott

I bring out the best in you
But you bring out the worst in me
There's nothing I wouldn't do (for you)
But you don't give me anything..
Wish that I was strong enough to weather this storm
My friends are saying they don't recognise me from before
And when I say I'll leave you don't believe me anymore
Cause you know that I'll always be there
Maybe that's why you don't care
So just take it all, and watch how I fall
Always thinking you'll catch me,
You are killing me slowly
I keep holding my breath, cause I love you to death
I love you to death
I love you to death
Oooh.
You're the reason I still hope
You're the reason I still joke
It used to be your love would take my hurts away
But now you love to watch me break
Ohh
How am I supposed to leave you if you refuse to let me go
Don't know how I ever let you have so much control
Every time your feeling how you make me feel so low

Cause you know that I'll always be there
Maybe that's why you don't care
So just take it all, and watch how I fall
Always thinking you'll catch me,
You are killing me slowly
I keep holding my breath, cause I love you to death
Every time you come back I believed it
But I know that you don't really mean it
Your so good being bad that I buy it
Every time you come around
You're the reason I still hope

You're the reason I still choke
Cause you know that I'll always be there
Maybe that's why you don't care
So just take it all, and watch how I fall
Always thinking you'll catch me,
You are killing me slowly
I keep holding my breath, cause I love you to death
I love you to death
I love you to death
