

# Second Place

## The Get Up Kids

It's been proven, hundreds over since  
Decision was the best that we could make  
It all wasn't clear enough before That's not what I said, that's not what I said  
And I bent over backwards just to speak  
And if you've got things straight in your head  
Then you've got bigger problems than me I'll send you straight to your room until you calm down  
Until you've thought through what you wanna say This isn't me as much as it may seem  
And you're still thinkin' and you're still
