

# City Baby Attacked By Rats (Live '88)

## G.B.H.

The memory lingers on when you were the same as us.

Three months old a child, still you lived off love and fuss. City baby, city baby, city baby attacked by rats.

Residing in a squalid place, it can't be too much fun.

Your brain is getting eaten away by the rat living in your skull. A mutant at the age of one, a human rodent  
cabbage.

It's hard to think a tiny thing can do that much damage.
