Violet Moss

all the words you didn't say
for all the things you had to walk away

the hardest call i had to take
within the righteous face i had to fake, how

for the things you kept away
and all the things that you have fail to say, loud

i had to find a way to move
my head was twirling
feel i sweat and tremble.

you said goodbye
outside the roller coaster
i can't get out
i feel betrayed in my own sense

all the voicing's i could hear
was like a spell that sounds inside my ears, loud

the hardest call i had to take
within the righteous face i had to fake, how

go round
on the roller coaster
i can't get out
i feel betrayed in my own sense
