Suicidal Failure

Suicidal Tendencies

Father forgive me for I know not what I do
I don't want to live, I don't know why
I tried everything but I'll leave it up to you
CHORUS
I don't have no reasons, I just want to die
I'm a suicidal failure, I've got to get some help
I have suicidal tendencies but I can't kill myself
I'm tired of this way of life, my patience has expried
I'm barely jsut 20 but my life I will retire
I went down to a rifle store, I bought myself a gun
CHORUS
I point it at my head but I couldn't get the job done
I took all my mother's sleeping pills
I jumped off a freeway bridge
I drank three kinds of poison
And drove my car off a ridge
I beat myself with a bat
Put a noose around my head
But I'm still not dead
I overdosed on heroin
CHORUS
Death may not be the answer
But me I'm not into living
It can't be all that great

With life I can't relate
I want to start my second life now
By some masochistic reasoning I think that it will be fun
So shoot me with your gun
CHORUS
I'm looking forward-suicidal
I'm really bored-suicidal
You wanna die-suicidal
Then die-suicidal
At the game-suicidal
Honestly-suicidal
At my school-suicidal
At the bar-suicidal
Suicidal

Suicidal
Suicidal
Suicidal
