All Over the World

Advisory - the following lyrics contain explicit language:

Now, why you move so damn slow, pick it up
You gotta let it go
So are you in or out, now what's your game
You gotta let me knowCause time is running out in here
And life starts wearing me out
And i would take you anywhere
You got one second to goJust follow me all over the world
And you won't even notice what hit you babe
Just follow me all over the world
And life will never treat you the same againCause a jump like this, will mess you up
But i can't do less than this
Just follow me all over the world
And life won't treat you so badYou gotta let those fat beats move you feet
Baby just count on me
Just let your head go insane, lose your lane
Be what you're made to beCause time is running out in here
You got one second to goJust follow me all over the world
And you won't even notice what hit you babe
Just follow me all over the world
And life will never treat you the same againCause a jump like this, will mess you up
But i can't do less than this
Just follow me all over the world
And life won't treat you so badJust follow me all over the worldAnd you don't know me yet
But I don't care (x2)I wanna make this tonight
Let's do this alright
Next flight is your flight
You got it girl,Can't stop this, tonight
Don't be so uptightI want you to follow me all over the world
And you won't even notice what hit you babe
Just follow me all over the world
And life will never treat you the same againCause a jump like this, will mess you up
But i can't do less than this

Just follow me all over the world
And life won't treat you so bad
