

# Drunk & Crazy

## Fang

Hello everybody I just come to say  
Didn't come to stay I just came to play  
So lock all the doors and open up the wine  
Tell all the babes to stand in line  
Drunk and crazy let the good times roll  
Way across the room I see a fancy fox  
Got the key to open up her lock  
So I slide across the floor with my sex appeal  
And said hey babe how do you feel  
Just about to put my cake in her over  
Opened the door and there was her husband  
He was seen blue and turnin red  
Slapped me down stomped on my head  
Got me to the hospital in the nick of time  
Had a fractured skull and a busted spine  
Doctor came in he could hardly stand  
He has a bottle in his pocket and a scalpel in hand
