Clearest Indication

Great Big Sea

You left in the morning, you left without a word
Did you get what you came for? Is this what I deserve?
All I know is the silence was the loudest thing I'd ever heardWhere do we stand, what am I supposed to do?
Give me the clearest indication I'm not alone with you
And reach out your hand in a world I thought I knew
I need the clearest indication, the clearest indication from youDid we have all we wanted and let it slip away in time?
Like a country divided, fifty-one to forty-nine
Years ago, I suppose that we just can't seem to make up our mindsNow where do we stand, what am I supposed to do?
Give me the clearest indication I'm not alone with you
And reach out your hand in a world I thought I knew
I need the clearest indication, the clearest indication from you
Clearest indicationTimes like these it's hard to see with any kind of clarity
What's the point of wondering anymore
So much I just can't figure out I'd love to know without a doubt
For sure, for sureWhere do we stand, what am I supposed to do?
Give me the clearest indication I'm not alone with you
Reach out your hand in a world I thought I knew
I need the clearest indication, the clearest indication from youClearest indication from you
I need the clearest indication from you
Clearest indication from you
