Love And Fear Unite

Rage

If it's the last thing I would do
I will apologize to you
The only thing I ever wanted was you
I know this is the only bigger truth, yeahDon't you dare what's to do?
When love and fear unite
Now all this happens to you
When love and fear unite
They uniteI never meant this thing to you
If you could only see what's true
It's like a pattern in my mind
It makes me rageous, makes me blindThe only thing you wanted me to do
Was not to see the past
Was to see youDon't you dare what's to do?
When love and fear unite
Now all this happens to you
When love and fear unite
They uniteIf it's the last thing I would do
I want to start and try anew, yeah
The only thing I ever wanted is you
And if it all comes down this is the truthDon't you dare what's to do?
When love and fear unite
Now all this happens to you
When love and fear unite
They uniteDon't let your love and fear unite
Don't let your love and fear unite
