Bonesaw

Sigma

Bodies missing legs and arms
Head is crushed to a reddish pulp
Torso drained of blood and bile
Butchered rotted corpse defiledHand me the bonesaw
Time for dissection
Hand me the bonesaw
Begin the amputationDying slow and painfully
A gasping breath escapes from you
I rip the flesh and cut through bone
You are bleedingSawed your body parts away
Disgusting rotten stench surrounds
Gushing stumps are frayed and torn
Exposing cartilage and boneHand me the bonesaw
Time for dissection
Hand me the bonesaw
Begin the amputationDying slow and painfully
A gasping breath escapes from you
I rip the flesh and cut through bone
Alive to watch your arms removedCutting, killing sawed to pieces
Jagged wounds in bodies naked
Scraping bone, the marrow leaks
Mouth taped shut so you cant screamSaw blade binding cranial
Separate, coagulate, ripped to shreds
Vivisect, operateHand me the bonesaw
Time for dissection
Hand me the bonesaw
Begin the amputation
