Plastique

Plastikman

Oh Noo
Last night I made a prediction
It's not worth all the affliction
I almost wish, I wish it wasn't my reality
It's totally non-fiction
Everything is a contradiction
That's right, baby what I've got is real
Life has me right, where it wants me, it's so beautiful
Time passes by, choose to close my eyes, far from beautiful
I'm not made out of plastic
Got to get out, and be drastic
Cause what I've got, baby what I've got is real
Life has me right, where it wants me, it's so beautiful
Time passes by, choose to close my eyes, far from beautiful

And I'm not made out of plastic
I'm not made out of plastic
I'm not made out of plastic
Made of plastic
Made of plastic
Cuz I'm not made oh oh oh yeah
Life has me right, where it wants me, it's so beautiful
Time passes by, choose to close my eyes, far from beautiful
Last night I made a prediction
It's not worth all the affliction
I almost wish, I wish it wasn't my reality
It's totally non-fiction
Everything is a contradiction
That's right, baby what I've got is real whoa oh oh
