

Don't Forget About Us

Mariah Carey

(Don't forget about us)
Don't, baby, don't, baby, don't let it go
No, baby, no, baby, no, baby, no
(Don't forget about us)
Don't, baby, don't, baby, don't let it go
My baby boy Just let it die with no goodbyes
Details don't matter, when both pay the price
Tears in my eyes, you know sometimes
It'd be like that, baby, yeah Now every time I see you
I pretend I'm fine
When I wanna reach out to you
But I turn and I walk and I let it ride Baby, I must confess
We were bigger than anything
Remember us at our best
And don't forget about Late nights, playin' in the dark
And wakin' up inside my arms
Boy, you'll always be in my heart and
I can see it in your eyes, you still want it
So don't forget about us I'm just speaking from experience
Nothing can compare to your first true love
So I hope this will remind you
When it's for real, it's forever
So don't forget about us Oh, they say that you're in a new relationship
But we both know, nothing comes close to
What we had, it perseveres
That we both can't forget it, how good we used to get it There's only one me and you
And how we used to shine
No matter what you go through
We are one, that's a fact
That you can't deny So, baby, we just can't let
The fire pass us by
Forever we'd both regret
So don't forget about Late nights, playin' in the dark
And wakin' up inside my arms
Boy, you'll always be in my heart and
I can see it in your eyes, you still want it
So don't forget about us I'm just speaking from experience
Nothing can compare to your first true love
So I hope this will remind you

When it's for real, it's forever
So don't forget about us And if she's got your head all messed up now
That's the trickery
She'll wanna have like you know how this lovin' used to be
I bet she can't do like me, she'll never be MC
Baby, don't you, don't you forget about us Late nights, playin' in the dark
And wakin' up inside my arms
Boy, you'll always be in my heart and
I can see it in your eyes, you still want it
So don't forget about us I'm just speaking from experience
Nothing can compare to your first true love
So I hope this will remind you
When it's for real, it's forever
So don't forget about us Late nights, playin' in the dark
And wakin' up inside my arms
Boy, you'll always be in my heart and
I can see it in your eyes, you still want it
So don't forget about us I'm just speaking from experience
Nothing can compare to your first true love
So I hope this will remind you
When it's for real, it's forever
So don't forget about us Don't, baby, don't, baby, don't let it go
No, baby, no, baby, no, baby no
Don't, baby, don't, baby, don't let it go
When it's for real, it's forever
So don't forget about us
