Fake Somebody / Real Nobody

Lock Up

Narrow-minded, selfish fuck
I won't take another lie
Cold-hearted fucking creep
Vicious circles are your lifeStabbed in the back
Stabbed in the back
Knuckles white bent on revengeFake somebody, real nobody
Fake somebody, real nobodyBehind your eye's a burning wish
For a life beyond all grief
Betraying everything and all
Clutching dreams in nightmares realmStabbed in the back
Stabbed in the back
Knuckles white bent on revengeFake somebody, real nobody
Fake somebody, real nobodyStabbed in the back
Again and again
When answers are questions
Only lies remain
