Something Like This

è• æ²¼å-•ä¸‰

I just need to hear that song again
Oh there I was standing all alone
When you came dancing
Very very near me
Why'd you have to go and disappear?And if they play that song maybe
You'll come dancing back to me
I can't remember any words
There's a verse and after it goesSomething like this(goes)
Something like this(goes)
Over and over like a robot you goNo I don't feel like going home
Oh, there's no chance
I'm leaving here solo
How will I ever find
A way to track you down?
The floor is where I'll stay andAsk somebody if they see
Someone shaking tambourines
Two feet that never touch the ground
searching til I've found your moves goSomething like this(goes)
Something like this(goes)
Over and over like a robot you goI'm so lonely I could die
I've got someone like you in mind
Oh to love me 'stead of passing by
When my heart beats it goes
Something like this(goes)
Something like this(goes)
Over and over like a robot you go
