

# Matroshka (The Ornament)

dredg

I was looking down at you smiling up at me  
For once I held you tight but shadow hands grabbed at me  
Your head was in the clouds, now, those clouds are in your head  
It's when you needed me so I listened to want you said  
Look another year went by  
They keep passing by  
But damn, I didn't even die  
Too old and slow I've grown  
I fought time but lost  
It was love like a callus you scarred enough to be  
Tough and immune, to body adapts you see  
To all above my head and all below my feet  
No, that's one freedom you'll never take from me  
Look another year went by  
They keep passing by  
But damn, I didn't even die  
Too old and slow I've grown  
Well, I fought time but lost  
To criticize and judge, how did I end up here?  
With these standards I'm forced to love  
Make me disappear  
(Hold tight, hold tight)  
To criticize and judge, how did I end up here?  
(Hold tight)  
With these standards I'm forced to love  
Make me disappear  
(Hold tight)  
To criticize and judge, how did I end up here?  
(Look another year went by)  
With these standards I'm forced to love  
Make me disappear  
Hold tight, hold tight, hold tight, hold tight  
(Look another year went by)  
Hold tight, hold tight
