

# The Nephilim Rising

## Behemoth

( music by Nergal; lyrics by Krzysztof Azarewicz; acoustic outro by Seth )I'm burning like a fucking fire

Mysterious Domain, Murdered Apprehension

Shemyaza, Lacifarus - glow like the Sun

in this final hour

ov Dawn ov the Dusk

I, heart ov all chthonic hearts

vulture eye, fallen one, proclaim: this great world

is a mirror ov my small self :

striving for infinity, shall I remain? we cannot kill the time:

it is the time that kills us

and I'm the answer on my questions

and blood ov my hopes and all prayers -

mark the sunset, the last judgement -

and my rainment... -

this is the night, just black damn'd night as dethroned so enthroned, attracted... rejected...

in this totality is perfection ov Me in Thee

freedom ov Nature, delight ov Existence

so intoxicate me as I intoxicateth thee

slay me as I createth thee

when reality is nothing more

than quantum vortex

deep sleep

make it lucid dream

or hallucinate if you please

in exaltations ov All, One, None

there Is No Difference

we are the First and the Last Io Pan! lead: Nergal acoustic lead: Nergal
