

Shine Like Stars

[Glasvegas](#)

I see the black fade to gray
I feel forwards as the only way
Yesterday, all my happiness seemed so far away
Now it looks as though it's here to stay Shine like stars
Shine like stars do Cast a wish to the moon afar
Spare a thought for the ones that matter
If we could only mend the breaks
Open up our arms to fate, sweet fate And shine like stars
Shine like stars
Shine like stars do I see the black fade to gray
I feel forwards as the only way
Hold on tightly and hope it all lasts
Celebrate the future, forget the past Shine like stars
Shine like stars do Shine like stars
Shine like stars do
