

That Girl's Been Spyin' On Me

Billy Dean

How does she know what makes me laugh
Yes, and how does she know where to scratch my back
How did she figure me out so easily
I swear that girl's been spyin' on me Where did she get those big blue eyes
And how does she know what I like
How could anybody fit me right to a tee
I swear that girl's been spyin' on me 'Cause she been usin' information
I had locked up deep inside
To be the perfect woman
I've been lookin' for all my life
Maybe we're two people meant to be Now she knows all my inner thoughts
'Cause she got ways of makin' me talk
While she remains a mystery
I swear that girl's been spyin' on me 'Cause she been usin' information
I had locked up deep inside
To be the perfect woman
I've been lookin' for all my life
Maybe we're two people meant to be
