

# Falling

## Flatt Lonesome

You and I alone, dancing in the stars and we're falling falling.  
Soft light of the moon,  
Mornings coming soon and we're falling falling.  
Feelings come, feelings go all that I know is I'm falling falling.

Here we are again, darling don't catch me I'm falling falling.  
You're whom I adore, life worth living for and we're falling falling.  
Feelings come, feelings go all that I know is I'm falling falling

Falling in love with you.
